

### You Talked and Tuthill Listened!

Tuthill is about continuously improving through your feedback and our processes. We have invested to address the clear need to have up-to-date content at a moment's notice and the new Tuthill iPad App provides just that. With this tool you will be able to convey who we are while providing your customers with the best pump solution possible. Sharing accurate content with consistency and excellence builds credibility and strengthens relationships. Tap your way into brochures, videos, photos, performance curves and more with ease.

### Features

- Instant-on access to 120 years of manufacturing and engineering expertise
- Offline content storage for when you have no internet access
- Easily gather what you want through favorites, search, and knowledge packs
- Notifications to download updated information
- Easily share content and customizable knowledge packs
- Keep personal notes and share valuable feedback to further support Tuthill's continuous improvement

### This App is Built for You

The story about Tuthill, our culture, and our products will be available at any time. It is optimized for sales reps, distributors, and OEMs.

### Available on iTunes

Simply visit the iTunes store and search for "Tuthill" to download the app for any iPad running iOS 6.0 or greater.

**Available for download January 2014**

Excellence at work. Excellence in life.
